## **DETAILED ACTION**

### ***Election/Restriction***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-16 and 44-53 are drawn to a weight reduction composition and method, classified in class 514, subclasses 626 and 909.
- II. Claims 17-27 and 57-64 are drawn to a physical performance enhancing composition and method, classified in class 514, subclass 626.
- III. Claims 28-43 and 54-56 are drawn to a composition and method to increase muscle mass, classified in class 514, subclass 626.

The three inventions are independent and distinct, each from the other as they have acquired a separate status in the art as shown by their separate subject matter for inventive effort. Further, a reference which anticipates any one of the above inventions would neither anticipate or make obvious of the other inventions. Each such invention is capable of supporting its own patent. For these reasons, restriction requirement is proper.

To be complete, applicant's response must include a provisional election even though the requirement may be traverse.

The applicant is required to elect a single invention for examination purposes.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner K. Weddington whose telephone number is (703) 308-1235.
